Aspiring MERN Stack Developer with a solid understanding of JavaScript, React, NextJS, Typescript, Node.js, Express.js, and MongoDB. Completed several academic projects. Eager to apply my skills in a professional setting, contribute to dynamic development teams, and continue learning in a collaborative environment and also with knowledge of flutter and Dart with Firebase to make mobile applications.

CORE SKILLS:

- Languages: C++, Dart, SQL, HTML, CSS, JavaScript
- Frameworks: React, Next JS, NextAuth, TypeScript, Express, Tailwind, Bootstrap, Node.js
- Database: MySQL, MongoDB
- Tools/Technologies: Git, RESTful APIs, Canva
- Operating Systems: Windows
- Development Practices: OOP, DSA
- Others: Redux Toolkit, JWT, WebSocket, Bcrypt.js, Clerk, Webpack, Firebase, Vite, Hostinger

Professional Experience

WEB DEVELOPER

SanRam Travels | Panipat | **JUNE 2025 – CURRENT**

- Built and maintained scalable web applications using Next.js and TypeScript.
- Designed fully responsive UI with Tailwind CSS for cross-device compatibility.
- Integrated secure authentication and user management using Clerk.
- Implemented smooth animations and transitions using Framer Motion.
- Developed reusable, modular components following modern React best practices.
- Optimized performance, fixed bugs, and maintained version control using Git.

MAK Foods (Frusome) | Delhi | **MAR 2024 – JUNE 2025**

- Designed and developed a responsive and high-performance website for Frusome using React, Vite, and Tailwind CSS.
- Integrated React Router DOM for seamless navigation and multi-page architecture.
- Implemented smooth user interactions and animation effects using Framer Motion and React Scroll for enhanced UX.
- Created modular, reusable UI components and responsive layouts using Tailwind CSS and modern CSS principles.
- Optimized web performance using Vite bundler, lazy loading, image optimization, and best practices.

Bachelor of Technology in Computer Science | CGPA: 8.4/10
Panipat Institute of Engineering and Technology, Samalkha

Projects

Sanram Travels | <https://sanramtravels.com/search>

Key Skills: Next.js, TypeScript, Tailwind CSS, Clerk, Framer Motion, Responsive UI Design, NextAuth

- Developed a high-performance and SEO-friendly travel booking platform using Next.js (App Router) and TypeScript, ensuring optimized server-side rendering and improved scalability.
- Designed and implemented a fully responsive UI using Tailwind CSS, delivering a seamless experience across mobile, tablet, and desktop devices.
- Integrated Clerk authentication for secure user sign-up, sign-in, and session management, enhancing user security and access control.
- Enhanced user engagement with smooth page transitions and interactive animations using Framer Motion, improving overall user experience.
- Built modular, reusable, and strongly typed components following modern React and Next.js best practices for maintainability and clean architecture.

Fruesome | <https://www.frusome.com/>

Key Skills: React.js, Vite, TypeScript, Tailwind CSS, React Router, Framer-Motion, Responsive UI Design

- Built a responsive fruit-cream selling website using React, Vite, and Tailwind CSS, ensuring fast performance and smooth user experience.
- Implemented dynamic routing with React Router and smooth scrolling animations using React-Scroll and Framer-Motion.
- Created clean, reusable UI components with Lucide React icons, TypeScript, and modern React best practices.
- Optimized development workflow using ESLint, TypeScript-ESLint, PostCSS, and Vite build tools, delivering a production-ready front-end application.

Food App | <https://food-deliverry-app.onrender.com/>

Key skills: React JS, Mongo DB, Bootstrap, REST API, JWT, Thunder Client, Bcrypt.JS, Mongoose

- Developed a full-stack application handling core functionalities such as API creation, business logic implementation, and database management.
- Created secure and efficient APIs for user authentication and order processing, using JWT tokens for authorization.
- Engineered a well-structured database schema in MySQL, ensuring seamless data relationships and scalability.
- Conducted extensive testing using Thunder Client to ensure API robustness and functionality.
